## SUMMARY

M.Sc. IT student with strong fundamentals in programming, OOP concepts, web development, and database management. A quick learner with good problem-solving skills. Seeking an entry-level role or internship to apply technical knowledge and grow as an IT professional.

---

## TECHNICAL SKILLS

- Front-End: HTML5, CSS3, JavaScript
- Back-End: PHP
- Languages: C, Java, Python
- Databases: MySQL, SQLite, PL/SQL

---

## PROJECTS

### Wedding Management System

- Developed a wedding management web application using HTML, CSS, JavaScript, PHP, and MySQL with full CRUD functionality.
- Managed secure user authentication, service booking functionality, and admin panel management.

### Cake Ordering Platform

- Developed a web-based cake ordering system using PHP and MySQL.
- Implemented user authentication, product catalog, add-to-cart, and order processing.
- Managed database for user details, product information, and order records.

### Weather Forecast Web Application

- Built a weather forecasting web app using Python, Flask, and the OpenWeatherMap API.
- Displays temperature, weather condition, humidity, wind speed, and a 6-day forecast for any city.

### Personal Portfolio Website

- Responsive personal portfolio website built using HTML, CSS, and JavaScript, and deployed on Vercel.
- Displays technical skills and project details with a downloadable resume and a contact form.

---
