📍 Ahmedabad, Gujarat | 📩 patelmanushi37@gmail.com | 📞 +91 9265897249

## SUMMARY

M.Sc. IT student with strong knowledge of programming, web development, and databases. Hands-on experience gained through academic projects and seeking an entry-level role or internship to apply technical skills in real-world applications.

## TECHNICAL SKILLS

- Web Technologies: HTML5, CSS3, JavaScript, PHP, WordPress, Magento
- Programming Languages: C, Java, Python
- Databases: MySQL, SQLite, PL/SQL
- Frameworks & Tools: Flask (Basic), XAMPP, VS Code, GitHub

## PROJECTS

### Cake Ordering Platform

- Designed and developed a dynamic cake ordering web application using PHP and MySQL.
- Implemented user authentication, cart management, and order placement features.
- Structured the database to efficiently manage products, users, and order history.

### Weather Forecast Web Application

- Built a Python-based weather forecasting application using Flask.
- Integrated the OpenWeatherMap API to display real-time weather data and 5-day forecasts.
- Designed a clean and user-friendly interface for city-based weather search.

### Personal Portfolio Website

- Created a responsive personal portfolio website showcasing projects and technical skills.
- Deployed the website using GitHub Pages for public access.

### Wedding Management System

- Developed a system to manage wedding services such as decoration, catering, and photography with user registration and login.
- Enabled users to select services, add them to bookings, and automatically view the total cost.
- Created an admin panel to manage services, update prices, and handle user bookings.
